

HE GETS IN.

Charley Mitchell Allowed to Land on American Soil.

Immigration Officials Detain Him as an Ex-Convict.

JUDGE ANDREWS DISCHARGES HIM ON A WRIT OF HABEAS CORPUS.

Interviewed on Board the Vessel Last Night, He Says He Has No Conditions to Lay Down, but Wants a Reputable Club and a Fair Referee—Will Fight in a Twelve-Foot Ring and Will Give No Shows Before the Fight—Corbett Declares Himself.

New York, Feb. 16.—Charlie Mitchell, the English heavy-weight prize fighter, who arrived last night on the steamship Majestic, was detained this morning by Inspector Worman, chief of the customs guard, who refused to let him land because he held Mitchell to be an ex-convict.

When the Majestic reached her dock at 8:45 a. m. the inspector went aboard and, under instructions from Commissioner of Immigration Wober, informed Mitchell that he could not land just at present. Mitchell had with him a letter from his brother, John Mitchell, and a letter from his father, James Mitchell, both of whom were in the United States. Mitchell was somewhat surprised but did not make any objection when he learned that he might have to return to England without having landed his foot on American soil. He sent for his brother and father, and they remained with him until the afternoon. Mitchell was then taken to the United States Court when the quarantine officer was required to produce a cause why he should not be allowed to land. The content of Mitchell's counsel was that Mitchell's conviction does not deprive him from landing in America under the law, because Mitchell was convicted of only a simple assault and not of a felony. Mitchell has obtained a writ of habeas corpus from Judge Andrews of the Supreme Court compelling Wober to produce him in court at 2 p. m. to-day.

Judge Andrews, Supreme Court, discharged Mitchell when he was brought before him this afternoon on a writ of habeas corpus.

WHAT CHARLEY HAS TO SAY.

Charley Mitchell was interviewed on board the Majestic off the island during the night by a Post-Dispatch representative.

The first bit of news Mitchell heard was that the Corbett people had put up \$10,000. "That's good," he exclaimed, "and I shall cover that money in the morning. I have come here for the purpose of making a match which will decide the championship of the world. The conditions named by Corbett are perfectly agreeable to me."

"When do you care to fight?" was asked. "In six weeks if necessary, or at any reasonable time for that matter," Mitchell replied with some spirit. "My money has been up in London, but that makes little difference. I'll have Corbett's money covered inside of twelve hours."

"Are there any conditions you care to impose?"

"None," he added. "All I want is that the fight shall be conducted in a fair, square sportsmanlike manner. I know there are hundreds of sportsmen in America, and I shall let them judge if my statements are not fair."

"Have you any preference as to the club before which the fight shall take place?"

"Coney Island, New Orleans or San Francisco will suit me," said Mitchell. "There shall be no difficulty about that. I promise you. My backer, Mr. Abington, here, is ready to back me for any amount of money. As for the fight, I am quite ready to make money giving boxing exhibitions in America there is absolutely nothing in it. I shall not give a single show before the fight. Although many people do not like me in this country, I feel perfectly at home here, for honorable sportsmen without I have seen are my friends. When I fought Sullivan in France, I made many enemies who said I ran away and all that sort of thing. I am willing to fight Corbett in a twelve-foot ring and smaller still if he likes, and I'll not run away either."

"What do you weigh, eh?" he said, repeating the reporter's question. "Well, that's a delicate question, but you may say I am at present something above 200 pounds or more, if you like."

THE LAW.

There are three acts of Congress on which the Commissioner of Immigration may base his reasons for excluding Mitchell from American soil.

Sec. 5 of the act of March 3, 1875, says that any alien who is under sentence for felonies or crimes other than those of a political nature or whose sentences have been remitted so as to permit them to emigrate, to land in this country.

The act of Aug. 8, 1882, provides that all foreign convicts, other than those who have been sent back to the nation from which they have come.

The last act on the subject is that enacted March 3, 1891, which provides that all immigrants convicted of a felony or other infamous crimes or misdemeanors shall be excluded from the United States.

Under either of the latter laws Mitchell, it seems, could be excluded from the United States. Mitchell's only loophole of escape seems to lie in the fact that he was not convicted of a felony in this country. A two months' sentence would seem to be the punishment of a felony in this country.

A BLOODY BATTLE.

Chicago, Ill., Feb. 16.—The finish fight between George Burns and Jack O'Hara before the Continental Athletic Club at Hyde Park last evening proved to be one of the bloodiest battles ever fought in Chicago. About twenty members of the new athletic club were present when the round of the contest was of the hammer and tongs variety. Burns broke O'Hara's nose in the seventh and in the eighth split open his lips and broke one of his ribs. Burns received severe punishment about the face and breast. The knock-out blow in

DID HIM A WRONG.

St. Louis Priests Have Misunderstood Archbishop Ryan's Position.

HE WRITES THAT HE HAS NOT BEEN AN OPPONENT OF THEIR WISHES.

He Was for Vicar-General Brady Before the Priests Had Met and Made Their Selection for the Coadjutorship, But Has Since Advocated One of the Ecclesiastics Whom They Named.

Among the many criticisms which have grown out of the attitude of certain high ecclesiastics on the question of the St. Louis coadjutorship none occasioned more interest among the Catholic laity of the city than that passed by certain of the St. Louis clergy on Archbishop P. J. Ryan of Philadelphia for opposing the cause of Vicar-General Brady after the St. Louis priests had almost unanimously declared that he was not their choice. The sentiments of several of the pastors on this matter were published in the Post-Dispatch and some persons having sent a marked copy to his grace of Philadelphia, the Post-Dispatch on Feb. 12 received the following communication from him:

PHILADELPHIA, Pa., Feb. 12, 1893.

To the Editor of the Post-Dispatch: I received a marked number of your paper containing a statement to the effect that the Rev. P. J. Ryan, of Philadelphia, and the coadjutorship of St. Louis. My advocacy of Fr. Brady for the position of coadjutorship of the St. Louis diocese, I have been informed, has been misunderstood by certain of the St. Louis clergy. I am sorry to hear of this, as I have been very anxious to be understood. I have been very anxious to be understood. I have been very anxious to be understood.

It will be seen from the frank statement of the Archbishop that a gross injustice was done him by his St. Louis critics. It is but justice to many of the old pastors of St. Louis to say, however, that they did not believe the statement. The Archbishop is a man of high character and his position is a position of honor. He is a man of high character and his position is a position of honor.

THE PRIESTS' VICTORY.

A decided stir was created by the announcement from Rome, made in yesterday's Post-Dispatch, that the choice of a coadjutor for Archbishop Kenrick has been postponed, owing to the discrepancies and informalities of the documents submitted by the candidates.

It will be remembered that on or about Nov. 15 of last year the priests of St. Louis presented a petition for the selection of a coadjutor from one of three bishops: Rev. John L. Spaulding of Virginia, Va.; Rev. John L. Spaulding of Virginia, Va.; Rev. John L. Spaulding of Virginia, Va.

THE BISHOP'S VICTORY.

GREENFIELD, Ill., Feb. 16.—Lewis Gatten of Wabash, a brakeman, was thrown from a train of the Chicago & North Western Railway, making a fall of about 100 feet, and sustaining a fracture of the spine. The accident occurred while the train was passing over a trestle bridge near Greenfield.

A POWDER WORKS EXPLOSION.

PITTSBURGH, Pa., Feb. 15.—The explosion at the McCabe Powder Co.'s works near Verona last evening resulted in the killing of two men and serious injury to four others. Their names are: ALBERTUS MOORE, instantly killed; Wm. SCARBOROUGH, died at the Homeopathic Hospital.

JAMES VALDINGHAM and GRANT VALDINGHAM, badly injured by falling logs; CHARLES FISHER, laborer, badly burnt about the face and hands; ED LAUGHAN, severely injured by falling log.

There were also a number of others slightly hurt. The cause of the explosion will never be known, as the two men in the building at the time are both dead. The loss to the property is estimated at \$14,000 and is fully covered by insurance.

LEWIS GATTEN INJURED.

GREENFIELD, Ill., Feb. 16.—Lewis Gatten of Wabash, a brakeman, was thrown from a train of the Chicago & North Western Railway, making a fall of about 100 feet, and sustaining a fracture of the spine.

A SNAP SCHEME.

Hill-Murphy-Sheehan Combination Trying to Hold New York.

New York, Feb. 16.—Look out for an explosion. The Cleveland Democrats in the Legislature have prepared a "bomb" to wreck the machine. All the hope of the Hill-Murphy combination is now centered in the absolute control of the grass county districts.

They look to break the power of Tammany, and to hold New York and expect to hold Kings County in line by mesmerizing McLaughlin; but to strengthen the outposts in the city they have decided to make a snap scheme.

They plan to get control of the city of New York by either Republicans or anti-Tammany Democrats. They plan to get control of the city of New York by either Republicans or anti-Tammany Democrats.

They plan to get control of the city of New York by either Republicans or anti-Tammany Democrats. They plan to get control of the city of New York by either Republicans or anti-Tammany Democrats.

MANY LETTERS RECEIVED.

INTERESTING FACTS ABOUT MEN WHO HANDLE THE MAILS.

A Chat With the Employees of the New York City Post-Office—Better Times for Superintendents, Clerks and Mailmen.

The Postman's whistle is a sound which no one ever forgets. The instant it is heard one feels an interest. "Are the letters for me? Who can they be from? Does it mean good news or ill, perhaps, an announcement of death?"

"All times of the year, and all weather, the postman makes his regular rounds. Both he and his brother employees in the office are most important factors of our modern civilization. Here are some interesting facts connected with post-office employees:

Edwin M. Morgan, General Superintendent of the City Delivery, New York Post-Office, says: "My wife was not well and had her hair done by a hairdresser. I had her hair done by a hairdresser. I had her hair done by a hairdresser."

Mr. R. C. Jackson, Superintendent of the Railway Mail Service, says: "My wife has been in bed for some time. I have been in bed for some time. I have been in bed for some time."

Mr. D. C. Conklin, Superintendent in charge of carriers at the New York Post-Office, says: "I have had a very interesting experience. I have had a very interesting experience. I have had a very interesting experience."

Mr. Samuel B. Bowser of the Advertiser's Letter Department, cheerfully endorses the foregoing in the following words: "Nothing has ever given me more satisfaction than the work of a post-office carrier. I have had a very interesting experience. I have had a very interesting experience. I have had a very interesting experience."

Mr. A. B. Malt, superintendent of mails, New York Post-Office, is just as outspoken. He says: "I have been in the post-office for many years. I have been in the post-office for many years. I have been in the post-office for many years."

Mr. John B. Bly, superintendent of the post-office, says: "I have been in the post-office for many years. I have been in the post-office for many years. I have been in the post-office for many years."

Mr. A. B. Malt, superintendent of mails, New York Post-Office, is just as outspoken. He says: "I have been in the post-office for many years. I have been in the post-office for many years. I have been in the post-office for many years."

THE OHIO FLOOD.

His'z From Pittsburg to Cairo and the Mississippi p't Conine Up.

The Ohio at Pittsburg is rising. From Parkersburg to Cincinnati it is falling; from Cincinnati to Cairo it is rising. The Wash at Mount Carmel is rising. The Cumberland at Nashville is rising. The Lower Mississippi from Cairo to New Orleans is rising.

CINCINNATI, O., Feb. 16.—As was feared, the heavy rains of the past few days caused a continuance in the rise of the Ohio river at this point. At 10 o'clock last night it was 54 feet. Already much damage has been done. Mill Creek Valley as far out as Cumminsville is a vast lake and hundreds of houses, barns and other buildings are inundated. Many families have been driven from their homes. The spring crops of the gardeners in this territory are totally destroyed. The sinking of the Cincinnati wharf boat, which was the most serious loss along the river front thus far. The high water is beginning to be felt at the station of the Central passenger station, which must be traversed by trains entering the station and leaving it. The water, which was fully a foot deep. At the present rate it will not be long before the rising waters will enter the station. The entrance of trains at the Central station, and about the foot of the river, and about the foot of the river, and about the foot of the river.

Iron Mountain Wreck.

A wreck of a freight train on the Iron Mountain this morning near Kimswick has delayed all trains north for five hours. Two cars were thrown off the track in the wreck, but no one was hurt.

A JOCKEY'S DAID.

Miss Alice Cameron, a Well-Known Young Lady, Marries Johnnie Gorman.

Johnnie Gorman, one of the best known jockeys at the East St. Louis track, was married yesterday to Miss Alice Cameron, the 18-year-old niece of the late Logan A. Dameron, editor of the Christian Advocate of this city. Miss Dameron is a resident of Murphysboro, Ill., and made Gorman's acquaintance in this city some six or seven months ago.

The ceremony was performed in St. Mary's Catholic Church in East St. Louis by Fr. John Hartman yesterday. Mrs. Gorman's relatives move in the best of the Louisville society. Gorman comes from New York City. He and his wife intend to make East St. Louis their home until the regular racing season opens up, when it is probable they will go East. Gorman has several good offers to ride on the Eastern tracks this year.

Refused a Divorce.

In the divorce case of George B. Pearce against Mary Magdalena Pearce, which was on trial in Judge Valliant's court yesterday and to-day, the Court dismissed both the petition and the cross-bill. In deciding the case Judge Valliant said that neither party had produced evidence which would show that a divorce should be granted. The parties had been divorced once before in Iowa and remarried, and the present judgment of the court leaves them to solve the matrimonial problem as best they can, as the last knot still remains firmly tied.

IN THE PUBLIC EYE.

Chief Events in the Life of Judge

Walter Q. Gresham,

WHO MAY BE CLEVELAND'S SECRETARY OF STATE.

Lawyer, Soldier, Politician, Jurist and Statesman—His Record on the Bench and in Arthur's Cabinet—The Famous Decision in the Wash Case—Revolt Against the McKinley Iniquity.

To-day Walter Quintin Gresham is before the eyes of the people in a stronger light than has ever before been thrown on his public life. The belief that he has been selected by Mr. Cleveland to occupy the most important seat in his Cabinet has drawn to him the attention of the whole country. Judge Gresham is one of the few remaining log-cabin statesmen. He was born on March 17, 1832, in an old-fashioned farm-house near Lanesville, Harrison County, Ind. His birthday was the same as St. Patrick's, but the Greshams are of English ancestry, and the family is as old as the Lincoln in the mother country. His father, William Gresham, was Sheriff of the backwoods county, and he died the death of a brave officer in the discharge of his duty. An outlaw named Spies had killed a man, terrorized a dozen officers. William Gresham sought him and arrested him at a dance. The Sheriff was unarmed and Spies shot him dead with his rifle. Judge Gresham was 2 years old then, next to the youngest of five small children.

In his boyhood he followed the plough by day and studied his books at night. His education was gained by the hard work of work and self-denial. His mother was poor but plucky and she managed the farm and kept the family together. She lives on the old place yet, and her distinguished son pays an annual visit there. Walter went to the Corydon he got a place in the County Clerk's office. Here he studied law, having entered his name in the office of Judge Wm. A. Porter. He was admitted to the bar when 22 years old and began to practice.

He was a Whig in politics and joined the Republican party as soon as it was organized. His law partner was a delegate to the convention which nominated John C. Fremont for the Presidency in 1856. Young Gresham stumped the State for "the Pathfinder." He was nominated for the Legislature in 1859 as a Republican and was elected, though his district had a normal Democratic majority of 500. As Chairman of the Committee on Military Affairs he brought forward and had passed a militia bill which placed Indiana on almost a war footing. He was a valuable coadjutor of War Gov. Morton, who leaned upon him and gave him his confidence. He aided in procuring the assent of the Indiana Legislature to the proposal to the Legislature of Virginia for a conference of representatives of the border States at Washington.

HIS MILITARY RECORD.
There was a military company in Corydon called the Spencer Rifles. Young Gresham was its captain. When the war broke out his constituents wanted to re-elect him to the Legislature, but the young military captain was too ardent a patriot. He enlisted as a private in the Thirty-eighth Regiment. Almost immediately he was made its lieutenant-colonel. He first saw service at Shiloh. Then he helped Gen. Veebe besiege Corinth. At Vicksburg he met Grant. After the surrender, Grant and Sherman united in recommending Gresham for a brigadier's commission and he received it. He was shot in the knee while in command of a division of Sherman's army at Leggett's Hill before Atlanta. Gen. Gresham has never fully recovered the use of that shattered leg. At one time Gresham was placed in command of the post and district of Natchez. His government of that turbulent city was so wise and judicious that it is spoken of to this day. His great difficulty was with the cotton speculators and cotton thieves. When they found an incorruptible man in command they resorted to every device and subterfuge to

deceive him. One of them became quite friendly with Gen. Gresham, but to no purpose. Gresham finally told him to leave town or he would put him in irons. The speculator, who had been a soldier, complained to Gen. Grant.

"Did Gen. Gresham say he would put you in irons?" said Grant.

"He most assuredly did."

"Well, then," said Grant, "I would advise you to keep away from him, for I have always found him a man of his word."

When Gresham was ready to stamp to the front again the war had ended. In 1863 he was brevetted Major-General, and being mustered out began the practice of law at New Albany, Ind. When Gen. Grant became President he offered Gen. Gresham the collectorship of the port of New Orleans and subsequently the District Attorneyship for Indiana. Both these offers were declined. It was said that Gresham had indorsed the applications of other men for each of the places, and felt himself in honor bound to refuse them. He twice ran for Congress and was defeated by Michael C. Kerr. In 1868 President Grant appointed him United States District Judge for Indiana. This appointment he accepted, and here began his judicial career. In the twelve years he held that District Judgehip not one of his decisions was reversed.

IN ARTHUR'S CABINET.
President Arthur called him from the bench to become a member of his Cabinet in 1881. He took the portfolio left vacant by the death of the late Secretary of State. One of the notable incidents of his career as Postmaster-General was his exclusion of the Louisiana Lottery Co. from the use of the mails, and this he accomplished in spite of powerful pressure. Near the close of President Arthur's term, on the death of Secretary Folger, Judge Gresham was appointed Secretary of the Treasury, a position which he held but a short time. Although one of the youngest, he was always one of the most trusted of President Arthur's advisers. His judicial quality of mind, his sense of fairness and his even temper made him a valuable coadjutor in such a position. He shared President Arthur's views with respect to a revision of the tariff and a reduction of the surplus revenue. One of his last acts as a member of the Administration was a speech delivered in Wall street to the business men of New York, in which, although Blaine, the Republican candidate for President, was daily winning every protectionist argument to account for the changes, he maintained that there was no legitimate excuse for the heavy burdens of popular taxation. That circumstance alone, his friends claimed with good reason, proved him independent of party discipline.

Gresham's fancy was always for the bench, though he was in a very retired position during his twelve years in the Treasury. In 1886 and in 1890 his friends tempted him to become a candidate for United States Senator from Indiana. He declined both times. He resigned his Cabinet position in 1891 to become United States Judge for the Seventh Judicial District. His last public act was to sign a bill in Chicago and his decisions have been recognized as fair and legal accuracy. One of the most notable of his decisions in the famous "Q. v. O'Brien" case is one which has made him thousands of friends among organized labor.

HIS MOST FAMOUS WASH. DECISION.
His most famous decision was in the Wash case in 1886, when he gave Judge Gould such a hard blow that that astute railroad magnate could only gasp out a "surprise." Gresham being ambitious for the Presidency, he had held court for several years in Chicago and his decisions have been recognized as fair and legal accuracy. One of the most notable of his decisions in the famous "Q. v. O'Brien" case is one which has made him thousands of friends among organized labor.

Each separate road had its separate indebtedness—and all that it could carry. A \$50,000,000 system was placed on the system, a large portion of which was sold in England. The system was also stocked to the extent of some \$50,000,000, one-half of it preferred stock, and the most was duly marketed on Wall street and in London. In 1878, 1880 and 1881 of New York, in 1880, 5 per cent dividends were sold, the preferred stock sold and the bonds at par. But the system did not earn the money to pay the interest on the separate mortgages with running expenses.

The heroic treatment of the system by Mr. Gould and his associates had the effect of heroic treatment often has on other kinds of systems. It broke down, and one day in May, 1888, Gen. Wager Swaine, attorney for Gould and all his friends, appeared before Judge Treat at St. Louis and filed a bill in equity on behalf of the Wash company, asking for the appointment of a receiver. Judge Treat referred him to Judge Brewer at Leavenworth, and Swaine went thither and obtained the appointment of a receiver. The receiver himself—Solomon Humphreys and Thomas E. Tutt—were receivers. This was all done with out notice to any of the creditors. The first thing these receivers did was to pay out of the receipts of the road as fast as they could certain advances that Western, Illinois and Dillon made, totally oblivious of the fact that they were but ordinary creditors, if at all, and that the mortgage creditors must be paid first. In fact,

they ran the system exactly as Gould wished. The first mortgage bondholders, finding their requests were not considered at all, finally filed a bill in the United States Court at Chicago for the removal of the case, and for an adjustment of their rights. The case came on for hearing before Judge Gresham in November, 1888, and lasted many days. Much testimony was taken, many nice and intricate questions of law were raised, and learned counsel argued with acuteness and ability. In his decision Judge Gresham tore away all the mass of sophistry that had been thrown around the case, ignored all the fine points that had been raised, and went to the heart of the matter. He saw through the whole scheme by which Gould and the rest had added millions to their private fortunes and he had no hesitations in characterizing it as it deserved. He took control of the roads in the system which were east of the Mississippi River, and placed the roads in the hands of an honorable receiver, Judge Cooley.

He saw through the whole scheme by which Gould and the rest had added millions to their private fortunes and he had no hesitations in characterizing it as it deserved. He took control of the roads in the system which were east of the Mississippi River, and placed the roads in the hands of an honorable receiver, Judge Cooley.

Jay Gould sneered and said: "That man Gresham is running for President." In Benjamin Harrison had not been in control of Indiana politics the Republican party would have elected Judge Gresham to important offices. His following in Indiana has always been strong one. But the Harrison following was usually a bit stronger. The two leaders have never been friendly, and this feeling has been bitter feud. John C. New, leader of the Harrison forces at last year's Minneapolis convention, raised his voice against Gresham on the bench years ago.

He was president of a bank which made bad calls. In charging the next Grand Jury Judge Gresham instructed them particularly to inquire into the circumstances of the failure of the Louisiana Lottery Co. from the use of the mails, and this he accomplished in spite of powerful pressure. Near the close of President Arthur's term, on the death of Secretary Folger, Judge Gresham was appointed Secretary of the Treasury, a position which he held but a short time. In fact,

Nugent's

Great Remnant Sale To-Morrow Will Be a Revelation.

Stacks of Remnants Calicoes, Gingham, Linens White Goods, Dress Goods, Silks and Black Goods Will Be Found Marked Low!

Pillow Shams.

At 50c Pair.

50 dozen Muslin Pillow Shams, ruffled and braided in white and red, well worth 85 cents a pair.

Friday at 50c a pair

Blankets.

Lot of 10-4 White Wool Blankets, heavy and good quality, with fancy borders, regular price \$2; will close this lot on Friday at

\$1.58 a pair

Lot of Horse Blankets, shaped for stable use, with strap and buckle, regular price 95c; will close out on Friday at

.69c each

Gloves.

At 35c Pair—Lot Ladies' Kid Gloves, 4-button, 5 and 7 hook lacing, slightly soiled in tans, slates, modes, browns and black, broken assortment of sizes, regular 75c, \$1.00 and \$1.25 qualities;

On Friday at 35c pair

Linens.

Friday Bargains.

At 5c—35 dozen All-India Towels, large size 16x20, value 10c

Friday 5c each

At \$1.00—75 odd lots of fine hemstitched Huck Towels, in half dozen lots, never sold less than 25c each

Friday \$1.00 for 1/2 doz

85c Each—24 Finest Linen. Side-board Scarfs, brochied and fancy hemstitched, soiled, regular price \$1.75 to \$2.50

and few will speak evil of thee. Most people will take in the great remnant sales Friday that are advertised in Thursday's Post-Dispatch.

LEADS THE LIST.

Progress of the "Post-Dispatch" Letter Carriers' Contest.

CARRIER DENEHY HAS NOW REACHED FIRST PLACE.

Several New Contestants in the Race—Many Changes in the Relative Standing of the Competitors—The Contest Rapidly Nearing a Close—Conditions and Correspondence.

The competition for first place in the Post-Dispatch contest to name the most popular letter-carrier in St. Louis becomes stronger than ever as the close of the contest draws near. Carrier McFadden, who has held it for so long almost without interruption, is again deposed, and has been forced to give place to Carrier C. J. Denehy. Five new names have been added to the list and many other changes have occurred in the relative positions of the contestants as noted below.

In sending in collections of coupons it is always advisable to paste them as neatly as possible in order to facilitate the count and to prevent errors. Do not roll your coupons up in bundles, but preserve them as straight and flat as possible. Always state the total number of coupons sent, thus providing a check upon the count here. Wrap your coupons up securely.

As stated daily in the conditions, no pooling of votes will be allowed and any competitors found chubbing will be at once disqualified. Such an attempt cannot be kept secret, and every case will be thoroughly investigated before the final award is made. No exceptions to this rule will be made in favor of anyone. The public themselves can probably do more to prevent any such attempt and to promote fair play than anything else. Before handing your coupons to your favorite carrier ascertain his name and number and fill out the blank space on the ballot with the same in ink. In no case should coupons be handed to carriers in the blank form.

LIST OF CONTESTANTS.

1. Denehy, C. J.	Carrier No. 234
2. McFadden, W.	Carrier No. 511
3. Taylor, J. J.	Carrier No. 105
4. Davidson, G. W.	Carrier No. 523
5. Thomas, J. S.	Carrier No. 59

THE VITAL ISSUE.

Small Crack Cyclists Be Paid for Their Services.

NEXT WEEK'S L. A. W. CONVENTION WILL BE EVENTFUL.

The Maker's Amateur Bound to Cause Trouble—Dan Lamaney's Cause—Horse-Track and Stable Company—Coach of the Fight—The Base Ball World—General Sporting News.

The L. A. W. Constitutional Convention and the meeting of the National Assembly, to be held in Philadelphia, Feb. 20, will be very lively gatherings. There is little doubt that amendments proposed to both the constitution and the by-laws are numerous and far-reaching, and there is considerable feeling evinced in some of the questions that will come up for discussion. One of the most important questions which will come before the constitutional convention is that referring to the method of amending the constitution. There are two propositions put forward, one to permit amendments by the National Assembly, and the other to amend by popular vote. An attempt will be made to have the first named proposition the first question considered in the meeting, and, if carried affirmatively, to adjourn the meeting and have the entire business of the convention transacted by the National Assembly, which will be held later in the day. It is hardly probable that this can be done, as the amendment will probably be defeated. An amendment which will cause much feeling among Southern members is that barring out of the L. A. W. membership. Northern members are not vitally interested in this amendment, but it is said that Southern members will be prepared to vote affirmatively on almost any other question, provided a combination can be effected which will carry this amendment.

In the National Assembly the most important question which will be considered is that dealing with matters pertaining to racing. It is universally conceded that racing is a very important part of the business of the L. A. W. and that other season as it has been in the past, and that some change must be made. There can be no reasonable doubt that the best men who raced last season were practically in the employ of those interested in the sale of the machines which they rode, and the question will be whether these men will hereafter be considered amateurs and placed in a class by themselves or be declared professionals and treated as such. A recommendation of the Executive Board is to form two classes of amateurs, one to race for medals, cups, etc., of a limited value, and the other to race for prizes of greater value, the nature of which shall not be specified except that they shall not be cash.

The line drawn between an amateur who earns his livelihood riding in the employ and for the interest of manufacturers and a professional rider for a cash prize must be a very fine one, but rather than allow the best riders to be forced from the game by the recommendation will probably be adopted, despite strong opposition.

Aged ordinary tandem is one of the "new" things in wheel racing.

Perkins Trichakowski, a San Francisco resident, uses his name for a new kind of tandem. There are no women riders in Melbourne, though there are a few in Chicago and vicinity.

After a week's racing on a recent club run in England eleven of the machines were found to be in the hands of the French long-distance rider, in the hands of age. He has been racing for twenty years.

Elliptical tubing is coming into vogue as giving greater strength in the direction of the strains on wheel frames.

A lamp weighing only five ounces, the oil supply of which is contained in a small globe, is the latest novelty in the wheel it is used upon, is the latest novelty.

THE TURF.

"Service is in magnificent condition and ready to race for his life right now if it were necessary," said Dan Lamaney yesterday. "I do not care to start now in the kind of weather, however, and will let him continue to take matters easy in his quarters until the weather and track become more favorable. Then I intend to capture some of those handicaps with him, Lillian and St. Pancras, both of whom have no more started for some time past."

Lamaney does not think it necessary to race this class of horses when he can win with Swifter, Germanic and Frank Trimble. Service, Lillian and St. Pancras have been entered in all the big all aged stakes at the Fair Grounds and it can be relied upon they will make good showing whenever they start.

At East St. Louis.

Chicago, Ill., Feb. 16.—Charles A. Pettengill will handle the flag at Washington Park at the coming meeting. Judge Joseph J. Burke has been engaged as presiding official in the stand.

THE SPORT AT THE COURSE ACROSS THE RIVER yesterday was of the gilt-edged order, neck finishes resulting in three of the events, while the remaining two were interestingly contested for.

The weather was all that could be desired for this time of the year, and the track was in good shape. Three favorites and a pair of 6 to 1 shots were successful. Belle Redmond, first choice to open the scramble by a neck from Leadville. Puente 4 to 1 and 6 to 1 captured the second race by a length driving from Backwoods, who was backed down from 5 to 2 to 4 to 5. Flora May at 5 to 3 and 2 to 5 was successful in the third event by a neck from Flora. 5 to 1 shot. Zed at 4 to 1 won the handicap by two lengths from the favorite, Van Zant, who was backed down from even money to 4 to 5. Diana at 6 to 5 and 1 to 2 won the fourth.

ABOVE EVERYTHING ELSE, Dr. Pierce's Golden Medical Discovery purifies the blood.

By this means, it reaches, builds up, and invigorates every part of the system. For every blood-taint and impure blood, it is the only remedy so sure and effective that it can be guaranteed.

If it fails to benefit or cure, you have your money back. These diseases are many. They're different in form, but they're like in treatment. Run up the torpid liver into healthy action, thoroughly purify and enrich the blood, and there's a positive cure. The "Discovery" does this. As nothing else. Dyspepsia, Indigestion, Biliousness, all Bronchitis, Throat, and Lung Affections; every form of Scrofula, even Consumption (or Lung-Scrofula) in its earlier stages; and the most stubborn Skin and Scaly Diseases, are completely cured by it.

OUR WATERWAY.

The Cost and the Methods of Improving Its Navigation.

The following communication is from Capt. Edwin Gould, who was for many years actively interested in river traffic, and who is recognized as well posted on the history of Mississippi improvement.

To the Editor of the Post-Dispatch:

My attention has recently been called to a very able and interesting paper, read before the St. Louis Commercial Club, Jan. 11, by Mr. C. H. Haas, in which the importance of the navigation of the Mississippi river is discussed.

I am glad to see that the importance of the navigation of the Mississippi river is discussed. I am glad to see that the importance of the navigation of the Mississippi river is discussed.

I am glad to see that the importance of the navigation of the Mississippi river is discussed. I am glad to see that the importance of the navigation of the Mississippi river is discussed.

Three Elegant Watches—

ONE SOLID GOLD,

ONE FILLED-CASE GOLD,

ONE COIN SILVER.

On exhibition in the window of C. Boehmer & Co., 806 N. Broadway.

And 25 Other Valuable Prizes.

A "SPECIAL" Coupon Given to Every Want Advertiser.

J. Christman, 2805 Wisconsin Avenue.

I suffered for years in bed with the disease always growing worse. I tried every kind of medicine, but nothing helped me. I was almost blind, and everything I ate and drank came from me. I was so weak and nervous that I could not do anything. I was so tired that I could not sleep. I was so sick that I could not eat. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. I was so tired that I could not sit. I was so sick that I could not lie. I was so weak that I could not walk. I was so tired that I could not get up. I was so sick that I could not live. I was so weak that I could not die. I was so tired that I could not rest. I was so sick that I could not move. I was so weak that I could not stand. and by a careful application of the law principles of well-selected Copee, Mr. Ayne has prepared his breakfast tables with a deliciously flavored beverage which may save us many hours' doctors' bills. It is by the judicious use of such drinks that the human system is able to resist every tendency to disease. Hundreds of subtle miasmas are floating around us ready to attack wherever there is a weak point. We may have many a fatal shaft's piercing summer's wall of air, with very little and a poverty because of our neglect of the simple and effective means of self-protection. It is simply with boiling water or steam, sold only in half-gallon cans, by Grocers, Colonial Stores, etc.

AT THE THEATERS.

Modjeska at the Grand-Attractions
Billed for Next Week.

At the Grand Opera-house the "Crust of Society" is proving one of the most popular plays of the season.

There are a great many artists, as indeed great people in other channels of life, who have achieved distinction through that undefinable something that touches a responsive chord in the human heart.

There is no brighter example of those possessing this quality than Modjeska, who begins her annual engagement at the Grand Opera-house next Monday night.

Modjeska, a Polish actress, is a woman of great people in other channels of life, who have achieved distinction through that undefinable something that touches a responsive chord in the human heart.

There is no brighter example of those possessing this quality than Modjeska, who begins her annual engagement at the Grand Opera-house next Monday night.

CHINESE NEW YEAR.

How the St. Louis Celestials Observed Their Festal Day.

A casual observer will notice in every Chinese house and shop in the city to-day indications that the day is one of some special importance to them. The first thing that will be noticed is a slip of red paper stuck up in the window or on the door of each house.

This paper bears the names of two goddesses who died some 3,000 years ago, and because of services to an emperor at that date were called the gods of the portals.

All the doings and visitations to-day mean that it is the Chinese new year, and the Chinese new year lasts for about a week and is prepared for by each and every Chinese chasing a pretty lively scramble is often the result.

The first thing to be done on New Year's is to hang out the guardian of the portal along with an inscription wishing everybody in general all the good luck and success possible.

Then on the day itself calls are made. Here in St. Louis, however, the modern American post office system has brought into play and the most prominent Chinese merchants mail to each other their cards, which are a perfect pandemonium of fireworks and lanterns and goings on is reigning. According to the locality and the rank of the people other ceremonies are added to the calling and well-wishing, and as a rule the state of affairs is a most interesting one.

At the Chinese population of St. Louis being comparatively limited there cannot of course be any general celebration, but in China to-day a perfect pandemonium of fireworks and lanterns and goings on is reigning. According to the locality and the rank of the people other ceremonies are added to the calling and well-wishing, and as a rule the state of affairs is a most interesting one.

WHISKY INTERESTS.

A New Distillery to Be Started in Baltimore.

BALTIMORE, Md., Feb. 18.—A new distilling company is in process of organization by a number of wholesale liquor dealers of Baltimore. The company will manufacture high wines and raw stock, which goods are now almost exclusively controlled by the Whisky Trust. The new company will have a capital stock of \$100,000, which has been subscribed by the firms in the organization. The distillery will cost about \$200,000 and will be the largest distillery of its kind in the city. It will have a daily capacity of 5,000 gallons, or 100 barrels, of highwhisky. The purpose of this distillery is not to make any special brand of whisky, but solely to control the raw spirits for the use of the retailers.

DOCTORED WHISKY.

WASHINGTON, D. C., Feb. 18.—The inquiry into the whisky trust was continued yesterday with the examination of Mr. Myers, manager of the rebate department of the Treasury. The election of officers resulted in the following: President, Popularity of Cleveland; Vice-President, Robert Bell of Toledo, O.; Secretary, C. C. Wallace of Cleveland, Tex. The lectures commence at 8 o'clock.

Economic Lectures.

ST. LOUIS, Feb. 18.—The New York bar will lecture in Chateaufort Hall, Seventeenth and Olive, on Friday and Saturday, Feb. 17 and 18, under the auspices of the St. Louis Single Tax League. The subject on Friday will be "The Elements of Political Economy." On Saturday the lecture will be on "The Single Tax." The lectures commence at 8 o'clock.

Enthusiasm from Coughs, Sore Throat, etc., should try "Brown's Bronchial Troches,"

STANTON.

STANTON, Ill., Feb. 18.—Mrs. Bertina Mindy died Saturday, aged 75 years.

Three deaths from diphtheria have occurred the past week.

Miss Grace Patterson, the 15-year-old daughter of Mr. and Mrs. Hugh Patterson of this city, and a late pupil of the public school, is a contestant in the literary department of the St. Louis High-school for the Centennial Exposition, last week carried off the laurels. Her subject was "Our Trip to Denver."

Greenfield.

GREENFIELD, Ill., Feb. 18.—The thaw of Monday and Tuesday has been a great source of damage to the highways and railroads. Numerous bridges and culverts have been washed away. Should the warm weather continue the Littlefield, Carleton & Western Railroad will be compelled to abandon traffic. Yesterday morning one bridge was so badly damaged that it was necessary to transfer the engineer's office to the bridge.

Charles A. Hayes, Jacksonville, Grand Chancellor of the Knights of Pythias, is here and installed a lodge at this point last evening.

President Hayes' Successor.

BALTIMORE, Md., Feb. 18.—Goldboro A. Griffiths, President of the Maryland Prisoners' Aid society, stated that Gen. Joseph Brink, brother of Maryland, will succeed the late Rutherford B. Hayes, ex-President of the United States, as President of the National Prisoners' Aid Association.

Looking Backward.

In the good old days of childhood what splendid hot flaky biscuit and delicious pastry our mothers gave us. You may enjoy as good now. The secret is in using

Dr. Price's Cream Baking Powder.

It has remained the standard for purity, excellence and wholesomeness for more than forty years, and retained its supremacy among the practical cooks, in the great hotels, clubs, restaurants and in the homes of millions.

BOTH SIDES FIRM.

A Strike That Has Netted a Million and a Half Loss Still Unsettled.

PITTSBURGH, Pa., Feb. 18.—The river miners' strike, which is now in its sixth month, has been one of the most disastrous, both to the operator and the digger, in the history of the Monongahela Valley. Without including loss of profits and numerous incidents, the actual cost to the operators since the strike was begun on Sept. 12 has been close to \$300,000, while the miners' loss in wages will exceed \$1,000,000. Both sides are still firm and an early settlement is not expected.

BOYS' SUITS FOR \$5.00.

A New Lot of "Knockabouts" and "Ramblers" Received.

The "Knockabout" has the cavalry knee to the pants and every seam is truly stitched. The "Ramblers" have double seat to the pants and will be one of our most popular suits for \$5.00.

MILLS & AVERILL,

Broadway and Pine.

North St. Louis Notes.

As soon as the McCabe, Young & Co.'s new plant is completed the working force will be increased from 100 to 500 hands.

Over 4,000 hands are employed in the factories between Buchanan street and East Grand avenue, east of Broadway.

Contract has just been let for the building of forty dwelling houses this spring in Forti Acres place on College Hill.

The employees of the Broadway Cable Car Co. have organized a dramatic society and are now rehearsing "Ten Nights in a Bar Room," which will be performed in a short time. A stage for the purpose has been built in the bar over the power-house on Broadway and Salisbury streets.

Three original papers of influence of sodalities will read before St. Michael's Y. N. S. next Monday night. The papers will be read by O. Kelly, Edward Kearney and Mr. Frank R. Higney.

The Olympic cocked hat was worn at the Monday evening at North St. Louis Turner Hall, with forty members. The officers are as follows: Dr. A. J. Koster, President; Emil Hermann, Secretary; Arthur Indermark, Treasurer; A. W. Gaffron, Captain.
